

Innovative system solutions

New Technologies in Cardiopulmonary Diagnostics at a Glance

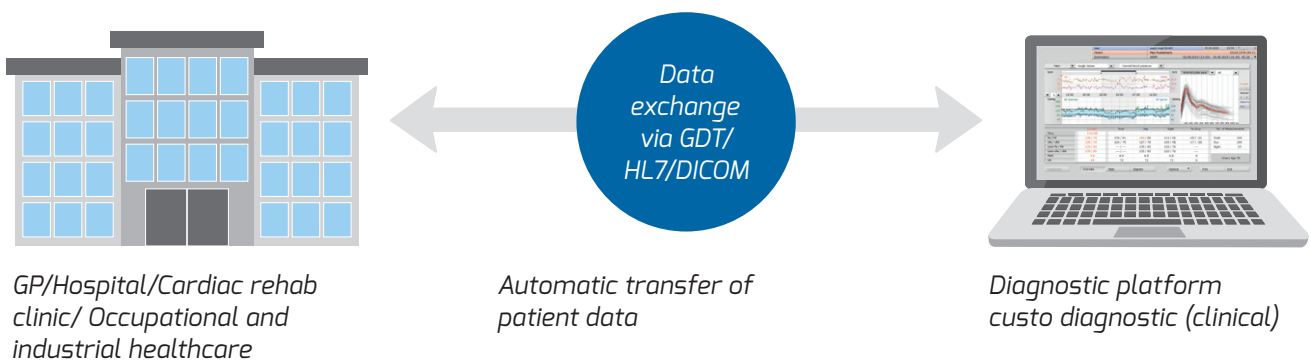

Cardiovascular diagnostics with custo med

Diagnostic devices and software from one source

For nearly 40 years and in cooperation with committed and competent sales partners, we have been offering innovative system solutions for cardiopulmonary diagnostics, facilitating everyday routine in hospital and general practice for you and your team. We take account of your individual organisational requirements and IT structures, no matter if your installation is based on a stationary or mobile system, a single-user workstation or multi-site network solution, in a general practice or in a hospital.

Maximum freedom and safe diagnostics with efficient workflow:

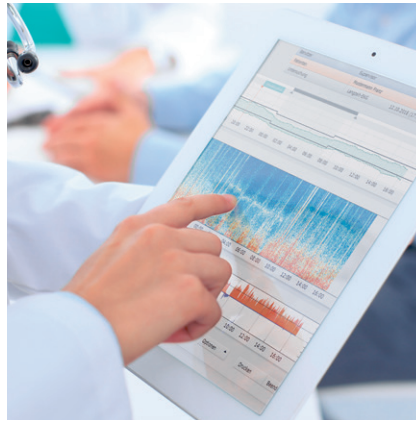

Your benefits:

- Flexible and modular platform for all areas of cardiovascular diagnostics
- Continuous and paperless working in all applications with only one database
- Flexible server licence model for maximum freedom in diagnostics
- Continuous patient management
- Time and cost-saving creation of reports
- All evaluations and reports can be sent via secure data lines
- Integration of third-party devices is possible
- Easy data exchange – also between different sites
- Easy user rights management
- Data protection compliant according to MDR
- Multi-client capable

Cardiac Rehabilitation

To perform an effective rehab, you only need a perfect ECG, various training devices and good software. With these three “ingredients” and the patient, a complete cardiac rehab with custo med is possible.

ECG solutions on-site Stress Test Systems

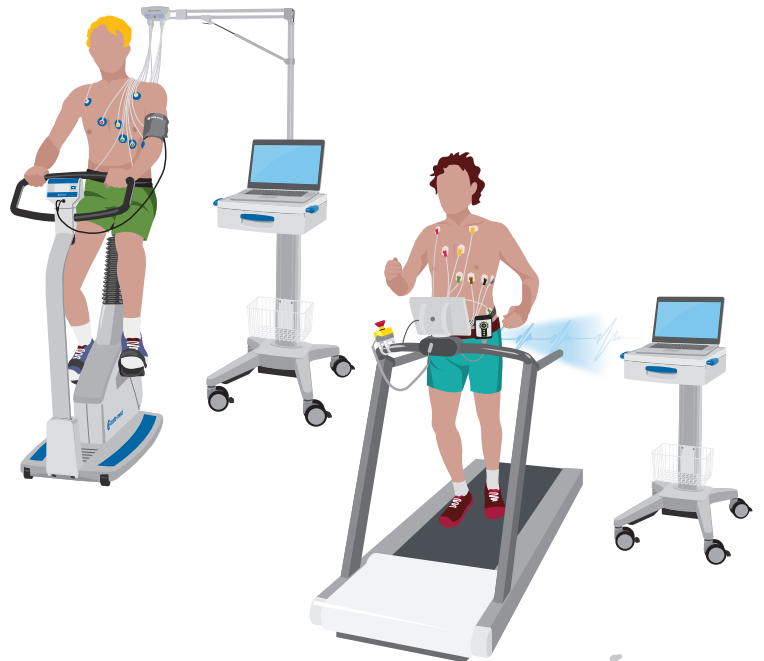

Paperless working means more than leaving out a printer. Due to the intelligent combination of smart ECG modules and modern IT components you create flexible, adaptable and low-maintenance ECG solutions for all requirements. The equipment of the systems is always individual and can be configured to one's needs.

* Stress Test System (example)

- Resting and Stress ECG custo cardio 400 with telescopic arm
- Equipment cart custo easy plus (individually configurable)
- Ergometer custo ec 5000 smart

* Treadmill System (example)

- Resting and Stress ECG custo cardio 300
- Equipment cart custo easy plus (individually configurable)
- Treadmill
